Table 14 (Continued)

Independent Variables			Trustworthy	Hardworking	Intelligent	Active	Lazy	Unimportant	Tough	Aggressive
WHITES Middle Class	Female	18-25	5.2	5.7	4.6	4.2	3.5	1.6	3.4	3.0
		35-45	3.6	4.4	4.3	4.3	3.7	3.1	3.6	3.8
	Male	18-25	4.1	4.7	4.7	4.7	4.6	2.7	3.2	4.3
		35-45	5.3	5.4	5.3	5.1	3.6	3.8	4.2	4.0

1. Main effect for race ($p < .0000$) -- Univariate tests indicate that blacks see Uncle Toms as less trustworthy, less hardworking, less intelligent, less important and less tough than whites do; multivariate tests indicate that all results are due to variance unique to each variable except that intelligent has common variance with trustworthy and hard-working.
